Part 1 - Leave Policy

Northwind Ltd - Policy owner: People and Culture - Effective 1 January 2026 - Version 2026-01

1. Purpose and scope

This policy explains every type of leave that Northwind Ltd employees can take, how much leave they receive, and how to request it. It applies to all full-time and part-time employees in every Northwind office. Contractors and interns are covered only where this policy says so.

Leave is requested and approved in PeopleHub, the HR portal. Questions about this policy go to the HR helpdesk at hr-help@northwind.example or +1 (555) 010-4400 (open 9:00 to 17:00 local time).

2. Annual leave

2.1 Entitlement

The leave year runs from 1 January to 31 December. Full-time employees receive paid annual leave in working days, according to their grade:

Grade	Annual leave per year
Grades G1 to G5	25 working days
Grades G6 to G9	27 working days
Grades G10 to G12	30 working days

Public holidays are not part of annual leave. Each office publishes its own list of public holidays (see the office calendars in Annex A of the Complete Employee Handbook).

2.2 Part-time employees and new joiners

Part-time employees receive a pro rata entitlement based on their contracted hours. An employee who joins during the year receives 1/12 of the yearly entitlement for each full month of employment in that year. Employees can use leave they have earned during the probation period, but may only take a block of more than 5 working days after the first 3 months of employment.

2.3 How to request annual leave

- Requests of 1 or 2 working days need at least 2 working days notice.
- Requests of 3 to 5 working days need at least 5 working days notice.
- Requests of more than 5 consecutive working days need at least 10 working days notice.
- The manager approves or rejects the request in PeopleHub within 3 working days. A request that is not answered within 3 working days is escalated to the manager of the manager.
- Employees should not book flights or other non-refundable travel before the leave is approved.

2.4 Minimum leave and blackout periods

Every employee must take at least 10 consecutive working days of annual leave once per year. This rule protects health and is explained in the Work-Life Balance Guidelines. Departments may declare blackout periods of at most 10 working days per year, for example the first 3 working days of each month in Finance (month-end close). Blackout periods are published in PeopleHub at least 60 days in

advance.

2.5 Carry-over and payment

Up to 5 unused annual leave days can be carried over to the next leave year. Carried-over days expire on 31 March. Annual leave cannot be paid out instead of being taken, except when employment ends: unused leave of the current year is then paid in the final salary. An employee who has taken more leave than earned repays the difference through the final salary.

3. Sick leave

3.1 Entitlement and pay

Employees receive 12 days of sick leave per year on full pay. After these 12 days, an employee who remains ill receives 50 percent of salary for up to 40 further working days. After that, the case is handled with the People and Culture team and the company insurer.

3.2 Reporting sickness

- The employee informs the manager before 9:30 on the first day of absence, by phone or message. An email alone is not enough on the first day.
- Sickness of 1 to 3 consecutive days is confirmed with a self-declaration in PeopleHub after returning to work.
- Sickness of more than 3 consecutive days needs a medical certificate, which is uploaded to PeopleHub within 2 working days of the doctor's visit.
- The employee keeps the manager informed about the expected return date.

3.3 Return to work

After an absence of more than 10 working days, the manager and the employee hold a short return-to-work conversation. The goal is to agree on any support or adjustment that is needed, such as a phased return of 4 weeks.

4. Family leave

4.1 Maternity leave

Employees who give birth receive 26 weeks of maternity leave on full pay. They may add up to 26 further weeks of unpaid leave. Leave can start up to 8 weeks before the expected date of birth. The employee informs the manager and People and Culture at least 15 weeks before the expected date of birth, using form HR-125.

4.2 Paternity and partner leave

The partner of a person who gives birth receives 4 weeks of paternity leave on full pay. The leave must be taken within 6 months of the birth and can be taken in one block or in two blocks of 2 weeks. The request is made with form HR-126 at least 8 weeks before the expected date of birth.

4.3 Adoption leave

Employees who adopt a child receive the same leave as for a birth: 26 weeks on full pay for the primary carer, and 4 weeks on full pay for the second parent.

4.4 Parental leave

Each parent may take up to 18 weeks of unpaid parental leave per child until the child is 8 years old. At least 4 weeks of notice are needed. Parental leave is taken in blocks of at least 1 week, with a maximum of 4 weeks per year, unless the manager agrees otherwise.

4.5 Carers' leave

Employees who care for a sick or elderly relative can take up to 5 days of paid carers' leave per year. Longer care needs can be covered by unpaid leave (section 6).

5. Special leave

All special leave is paid and is not deducted from annual leave.

Reason	Paid days
Marriage or registered partnership of the employee	3 days
Death of a spouse, partner, child or parent	5 days
Death of a sibling or grandparent	3 days
Death of another close relative or friend	1 day
Moving to a new home (once per calendar year)	1 day
Birth of a grandchild	1 day
Emergency at home (burst pipe, fire, sudden illness of a dependant)	2 days per year
Jury service or a court summons as a witness	for the duration, with the court allowance paid to the company
Blood or stem cell donation	half a day
Volunteering for an approved charity	2 days per year
Study leave for an approved course or exam	5 days per year
Two floating religious or cultural holidays	2 days per year

For bereavement leave, the employee informs the manager as soon as possible. Proof is not required. For marriage leave, the days can be taken within 6 months of the date of the wedding.

6. Unpaid leave and sabbatical

6.1 Unpaid leave

Employees who have completed their probation can ask for unpaid leave of up to 3 months. The request is sent to the manager at least 8 weeks in advance and needs the approval of the head of department. Pension and health insurance continue during the first 4 weeks of unpaid leave. After that, the employee can continue them by paying the full contribution.

6.2 Sabbatical

After 7 years of service, employees can take a paid sabbatical of 4 weeks, in addition to annual leave. The sabbatical is requested with form HR-130 at least 6 months in advance and must be taken within 24 months. It can be combined with annual leave for up to 8 weeks in total. A second sabbatical is possible after another 7 years.

7. Appointments and short absences

Employees may attend medical and dental appointments during working hours when these cannot reasonably be arranged outside working hours. They tell the manager in advance and try to keep the absence short. Appointments of more than 2 hours are recorded as half a day of sick leave. Antenatal appointments are always paid and are not deducted from any leave.

8. Cancelling and changing leave

An employee can cancel approved leave up to 2 working days before it starts. Changing approved leave needs a new request. The company may ask an employee to cancel approved leave only in a real emergency, with at least 10 working days notice, and then pays the documented costs that cannot be refunded.

9. Frequently asked situations

- If a public holiday falls during annual leave, the public holiday is not deducted from the leave.
- If an employee becomes ill during annual leave and has a medical certificate, the days of illness are counted as sick leave and the annual leave days are returned.
- Leave in half days is possible for annual leave, in the morning (until 13:00) or the afternoon (from 13:00).
- When an employee changes from full-time to part-time during the year, the entitlement is recalculated pro rata for each period.
- Leave balances are visible at any time in PeopleHub under My Time.

10. Responsibilities

Employees plan their leave early and keep their balance up to date. Managers approve leave fairly, make sure the team stays able to work, and make sure that every team member takes the minimum of 10 consecutive working days. People and Culture owns this policy, reviews it every year in November, and publishes changes at least 30 days before they take effect.

Part 2 - Code of Conduct and Workplace Rules

Northwind Ltd - Policy owner: People and Culture and Legal - Effective 1 January 2026 - Version 2026-01

1. Our values

Northwind Ltd works with four values: respect, honesty, ownership and curiosity. This code explains what they mean in daily work. It applies to all employees, contractors and interns, at the office, at customer sites, while travelling and online. Managers have a special duty to set an example.

2. Working hours and attendance

2.1 Standard hours

The standard working week is 40 hours, from Monday to Friday. The standard working day runs from 9:00 to 17:30 including a lunch break of 30 minutes. Teams can agree on flexible hours as described in the Work-Life Balance Guidelines. Everybody should be available during the core collaboration hours from 10:00 to 16:00 local time.

2.2 Punctuality and absence

Employees who expect to arrive more than 30 minutes late tell the team before the start of the working day. Unplanned absence is reported before 9:30 as described in the Leave Policy. Repeated lateness without a good reason is discussed first in a conversation with the manager and can later become a disciplinary matter.

2.3 Overtime

Overtime must be approved in advance by the line manager. Approved overtime is paid at 1.5 times the normal hourly rate on weekdays and at 2 times the normal hourly rate on weekends and public holidays. Employees of grade G10 and above are not paid for overtime, because it is part of their role. Overtime is limited to 8 hours per week.

3. Respect and equal opportunity

3.1 Equal opportunity

Northwind Ltd treats everybody fairly. Decisions about hiring, pay, promotion, training and dismissal are based on skills, performance and conduct only. Discrimination because of age, gender, gender identity, ethnic origin, nationality, religion, disability, sexual orientation, family status or any other protected characteristic is not tolerated.

3.2 Harassment and bullying

Harassment, bullying, humiliation and intimidation are not tolerated, in person or online. Examples are offensive jokes, unwanted physical contact, spreading rumours, shouting, and excluding a colleague on purpose. Sexual harassment leads to disciplinary action up to dismissal.

3.3 How to report a problem

- Employees can talk to their manager, to any other manager, or to the HR helpdesk at hr-help@northwind.example or +1 (555) 010-4400.
- Reports can also be made anonymously through the Speak Up line at speakup@northwind.example or +1 (555) 010-6600, which is open 24 hours a day.
- People and Culture confirms every report within 2 working days and completes the investigation within 10 working days. In complex cases the employee is told why more time is needed.
- Nobody may be punished for reporting a concern in good faith. Retaliation is a serious violation of this code.

4. Dress code

The dress code at Northwind offices is business casual: clean and neat clothes that are suitable for a professional workplace. Casual Fridays are allowed for everybody who does not have a customer meeting that day. Employees who meet customers wear smart business clothes unless the customer says otherwise. Safety clothing and shoes are mandatory in laboratories, warehouses and on construction sites. Religious clothing is always allowed. Departments with special requirements, such as the Facilities and Lab teams, publish them in their department rules.

5. Gifts, hospitality and conflicts of interest

5.1 Gifts and hospitality

- Gifts and hospitality from suppliers or customers with a value of more than 75 USD must be declared to the manager within 5 working days, using the gift register in PeopleHub.
- Employees never accept cash, gift cards or any gift during a tender process.
- Employees do not give gifts to public officials. Customer gifts need the approval of the manager and have a maximum value of 100 USD.

5.2 Conflicts of interest

A conflict of interest exists when a private interest can influence a business decision. Employees declare conflicts in writing to the manager before they take part in the decision. Examples are a family member who works for a supplier, shares in a competitor, or a private business with a Northwind customer.

5.3 Outside work

Work for another employer, a board position or a private business next to the Northwind job needs the written approval of the manager and People and Culture, using form HR-142. Approval is refused when the work competes with Northwind, uses company time or property, or can damage the reputation of the company.

6. Anti-bribery and honesty

Northwind Ltd does not offer, give, ask for or accept bribes, in any form, anywhere in the world. Facilitation payments are forbidden. Employees keep correct and complete records of all business transactions and never change a record to hide the truth. Concerns about fraud or bribery are reported to the Speak Up line at once.

7. Confidentiality and company property

7.1 Confidential information

Employees keep customer data, employee data, financial results, source code, product plans and prices confidential, also after they leave the company. Confidential documents are shared only with people who need them. Details are in the IT Security and Data Privacy Policy.

7.2 Company equipment

Company laptops, phones and accounts are used mainly for work. Reasonable private use is allowed when it does not disturb work, does not cost the company money and does not break the law. Company laptops must not be used for private business. Employees report lost or stolen equipment to the IT service desk within 1 hour.

7.3 Social media

Employees may share their own views online, but they make clear that these are private views and do not speak for the company without permission. They never share confidential information, photos of customers or colleagues without consent, or insulting content about colleagues, customers or competitors.

8. Alcohol, drugs and smoking

Employees do not work under the influence of alcohol or illegal drugs. Alcohol is allowed only at company events that have been approved by a director, and then in moderation. Smoking and vaping are allowed only in the marked outdoor smoking areas, never inside buildings and never at building entrances.

9. Visitors, parking and pets

- Visitors register at reception, wear a visitor badge, and are accompanied at all times.
- Employees may park free of charge in car park B during working hours. Visitors may use car park A. Disabled parking spaces are next to the main entrance and need a permit from the Facilities team.
- Bicycle racks and showers are available next to the main entrance.
- Pets are not allowed in the office. Guide dogs and assistance dogs are always welcome.
- Photography and video recording inside the buildings need the permission of the Facilities team.

10. Disciplinary procedure

When the rules of this code are broken, Northwind Ltd follows a fair procedure. The employee has the right to be heard and may bring a colleague or a staff representative to every formal meeting.

Step	What happens
Step 1 - Informal talk	The manager discusses the problem and agrees on improvements. A note is kept for 6 months.
Step 2 - Verbal warning	A recorded warning for minor misconduct. It stays valid for 6 months.

Step 3 - Written warning	A formal letter for repeated or more serious misconduct. It stays valid for 12 months.
Step 4 - Final written warning	The last step before dismissal. It stays valid for 12 months.
Step 5 - Dismissal	Employment ends, with notice or immediately in case of gross misconduct.

Gross misconduct, such as theft, violence, serious harassment, fraud or serious breaches of data security, can lead to immediate dismissal after an investigation. An employee can appeal against any disciplinary decision within 5 working days. The appeal is heard by a manager who was not involved in the first decision.

11. Grievance procedure

An employee who is unhappy about their work, treatment or conditions first tries to solve the problem informally with the manager. If that does not work, the employee sends a written grievance to People and Culture. A meeting takes place within 10 working days. The employee receives a written answer within 5 working days after the meeting and may appeal to a director.

Part 3 - Work-Life Balance Guidelines

Northwind Ltd - Policy owner: People and Culture - Effective 1 January 2026 - Version 2026-01

1. Why we have these guidelines

People do their best work when they can also take care of their health, family and interests. These guidelines describe the flexibility Northwind Ltd offers and the limits that protect everybody from overwork. They apply to all employees. Managers are responsible for applying them fairly in their teams.

2. Flexible working hours

2.1 Flexible start and end

Employees may choose their start time between 7:30 and 10:00, as long as they work their contracted hours and are available during the core collaboration hours from 10:00 to 16:00. The team agrees on the arrangement so that customers and colleagues always have a contact. Changes to the arrangement are agreed with the manager at least 5 working days in advance.

2.2 Compressed week

Employees who have completed their probation can ask for a compressed week of 4 days of 10 hours, instead of 5 days of 8 hours. The manager approves the request when the work of the team and the customers are not affected. The arrangement is reviewed after 3 months and then every year.

2.3 Part-time and job sharing

Employees may ask to work part-time, from 50 percent to 90 percent of a full-time job. Job sharing, where two employees share one role, is possible when the tasks can be divided well. Requests are answered in writing within 20 working days. A refusal needs a business reason, and the employee may appeal to the head of department.

3. The right to disconnect

Work stays within working time. To protect rest time, Northwind Ltd applies these rules:

- Employees are not expected to answer emails, messages or calls after 19:00, at weekends or during leave, except when they have agreed to be on call.
- Managers do not send messages to their team after 19:00 or at weekends. When a message must be written outside working hours, the sender schedules it for the next working day.
- Meetings are held between 9:30 and 17:00 only. Meetings of more than 60 minutes need an agenda and a short break.
- Wednesday afternoon from 13:00 is meeting-free, so that people can concentrate on their own work.
- An employee who is contacted urgently outside working hours receives time off in return, in agreement with the manager.

4. On-call duty and workload

Employees in on-call rotas, such as IT operations, are on call for at most 1 week in every 4 weeks. On-call duty is paid with an allowance of 250 USD per week and with time off in return for every call-out outside the on-call hours. Overtime is limited to 8 hours per week and requires prior approval. Employees who work more than 10 hours a day on 3 days in a row talk to the manager about the workload. Nobody may be asked to work more than 48 hours per week on average.

5. Taking rest

5.1 Annual leave

Everybody takes at least 10 consecutive working days of annual leave once per year. The manager plans cover for the team in advance. Employees do not check email during leave. Leave that cannot be taken because of work needs is discussed with the manager and not lost without a conversation.

5.2 Wellbeing day

Every employee receives 1 paid wellbeing day per year, in addition to annual leave. It can be taken on any working day with 2 working days notice, and the employee does not need to give a reason.

5.3 Wellness hours

Employees can use up to 3 paid wellness hours per month for exercise, a walk, meditation or a health appointment. The hours are agreed with the team and do not need to be recorded.

6. Health and mental wellbeing

- The Employee Assistance Programme (EAP) offers free and confidential counselling for employees and their family members. It is available 24 hours a day at +1 (555) 010-5500 and through the PeopleHub app. Each person can use up to 8 counselling sessions per issue per year.
- Trained mental health first aiders are available in every office. Their names are on the intranet page "Wellbeing".
- Managers receive training every 2 years on how to recognise signs of stress and burnout and how to start a conversation.
- Employees who feel overloaded talk to their manager, the HR helpdesk or the EAP. They will not suffer disadvantages.

7. Support for families

7.1 Returning from parental leave

Employees who return from maternity, paternity, adoption or parental leave can return in a phased way: for the first 4 weeks they may work 60 percent, 70 percent, 80 percent and 90 percent of their hours, and still receive full pay for the first 2 weeks of this phase. Details are agreed with the manager before the return.

7.2 Childcare and school holidays

Northwind Ltd pays a childcare allowance of 150 USD per month for each child up to 6 years of age, up to a maximum of 450 USD per month. During school holidays, employees can use flexible hours and up to 5 days of remote work in addition to the normal remote work arrangement, when the work allows.

7.3 Care for relatives

Employees who care for a relative can take up to 5 days of paid carers' leave per year and can ask for flexible hours or reduced hours for a limited time. The Leave Policy has the details.

8. Remote and hybrid work

Hybrid work supports a good balance between work and private life. The rules for working from home are in the Remote and Hybrid Work Policy. In short, employees may work remotely up to 3 days per week and work from the office on the team days, Tuesday and Thursday.

9. Career breaks and sabbatical

After 7 years of service, employees may take a paid sabbatical of 4 weeks (form HR-130). Unpaid leave of up to 3 months is possible after the probation period. These options are described in the Leave Policy.

10. How to ask for flexibility

1. The employee discusses the wish with the manager and explains what is needed. 2. The employee and the manager agree on a trial period, usually 3 months. 3. The agreement is recorded in PeopleHub under My Arrangements. 4. After the trial period the manager and the employee review the arrangement and decide to keep, change or stop it.

If the manager refuses, the manager explains the business reason in writing within 10 working days. The employee may ask the HR helpdesk for a second opinion.

Part 4 - Employee Benefits Guide

Northwind Ltd - Policy owner: People and Culture and Finance - Effective 1 January 2026 - Version 2026-01

1. Overview

Northwind Ltd offers a benefits package that supports health, security, learning and daily life. Benefits start on the first day of employment unless a section says otherwise. Some benefits depend on the grade of the employee (see section 9). Questions go to the HR helpdesk at hr-help@northwind.example or +1 (555) 010-4400.

2. Health benefits

2.1 Health insurance

The company pays 100 percent of the health insurance premium for the employee and 60 percent of the premium for dependants (spouse, partner and children). Coverage starts on the first day of employment and includes doctor visits, hospital stays, prescription medicine, and maternity care. The yearly deductible is 200 USD per person. Employees choose between the Standard plan and the Plus plan. The Plus plan has a higher premium, of which the employee pays the extra part.

2.2 Dental and vision

Dental care is covered up to 1,200 USD per person per year, including 2 check-ups and 1 professional cleaning. Vision care covers one eye test per year and glasses or contact lenses up to 300 USD every 2 years.

2.3 Life and disability insurance

The company pays a life insurance of 3 times the annual salary, and a disability insurance that pays 70 percent of the salary after 6 months of illness, until retirement age. Employees name their beneficiaries in PeopleHub.

2.4 Health and fitness

Employees receive a gym or sports allowance of 40 USD per month. It is paid after the employee uploads the monthly receipt in PeopleHub. Free flu vaccination is offered every autumn at all offices. Employees may also use the Employee Assistance Programme at +1 (555) 010-5500 (24 hours a day).

3. Retirement and financial benefits

3.1 Pension plan

The company matches the pension contributions of the employee up to 6 percent of the gross salary. An employee who pays 6 percent therefore receives a company contribution of 6 percent. Employees join the plan after 1 month of employment. The matching contribution belongs fully to the employee after 2 years of service.

3.2 Employee stock purchase plan

Employees may buy company shares through payroll deduction of up to 5 percent of the salary. Shares are bought every 6 months at a discount of 10 percent below the market price. Employees can sell the shares after a holding period of 12 months.

3.3 Annual bonus

Many roles have a yearly bonus. The target bonus depends on the grade: 5 percent of the annual salary for grades G1 to G4, 8 percent for G5 to G8, 12 percent for G9 and G10, and 20 percent for G11 and G12. The payout depends on company results and personal performance and is paid in March.

3.4 Salary review

Salaries are reviewed once per year, with the new salary valid from 1 January. The decision is based on the performance rating, the market, and the company budget.

4. Learning and development

Each employee has an annual learning budget for courses, conferences, books and certificates. The budget depends on the grade, from 1,500 USD for grades G1 and G2 to 5,000 USD for grades G11 and G12 (see the table in section 9). Unused budget does not carry over to the next year.

- Courses and conferences are requested in PeopleHub at least 10 working days before they start. The manager approves the request.
- The company pays the fee directly or reimburses it after the course, with the receipt uploaded within 30 days.
- Employees who leave within 12 months after a course that cost more than 2,000 USD repay a share of the fee, which reduces by 1/12 each month.
- Employees also receive 5 days of study leave per year for approved courses and exams (see the Leave Policy).
- The internal Northwind Academy offers free courses on leadership, data skills, languages and security.

5. Work-related allowances

5.1 Home office allowance

Employees receive a one-time home office allowance of 400 USD to buy a desk, a chair or other equipment for working at home. In addition, the company pays 50 USD per month towards internet and phone costs for employees who work remotely at least 2 days a week. The allowance can be requested again after 4 years.

5.2 Equipment

Every employee receives a laptop, a headset and a phone or phone allowance. Laptops are replaced after 4 years. Employees who need special equipment, for medical reasons or for their role, ask the IT service desk.

5.3 Meals and transport

Employees at offices without a canteen receive meal vouchers of 8 USD per working day. Employees who travel to the office by public transport can have the cost of a monthly pass reimbursed up to 120 USD per month. Employees who cycle to work can use the cycle-to-work scheme, which lets them buy a bicycle of up to 1,500 USD through salary sacrifice.

5.4 Childcare

The company pays a childcare allowance of 150 USD per month for each child up to 6 years of age, with a maximum of 450 USD per month.

6. Recognition and gifts

- Employee referral bonus: 1,000 USD for every successful referral. It is paid after the new colleague has completed 6 months of employment.
- Long service awards: a gift and a day of extra leave at 5 years, 10 years and 15 years of service.
- Wedding gift: 100 USD. Gift for a newborn child: 150 USD.
- Spot awards: managers can give a spot award of up to 250 USD for exceptional work, and up to 1,000 USD with the approval of the head of department.

7. Relocation and international assignments

Employees who move to a new office at the request of the company receive a relocation package: removal costs, temporary housing for up to 60 days, one trip home, and a one-time relocation payment of 2,500 USD. Employees who leave within 12 months after the move repay the relocation payment in full. International assignments are arranged individually with the Global Mobility team.

8. Benefits during leave and when leaving

Health insurance and pension continue during paid leave. During unpaid leave, they continue for the first 4 weeks (see the Leave Policy). When employment ends, health insurance stops at the end of the month, and the employee can continue the cover privately. Unused learning budget and allowances expire on the last working day.

9. Benefits by grade

Grade	Annual leave	Learning budget	Target bonus
G1 and G2	25 days	1,500 USD	5 percent (G1 to G4)
G3 and G4	25 days	2,000 USD	5 percent (G1 to G4)
G5 and G6	25 days (G5), 27 days (G6)	2,500 USD	8 percent (G5 to G8)
G7 and G8	27 days	3,000 USD	8 percent (G5 to G8)
G9 and G10	27 days (G9), 30 days (G10)	4,000 USD	12 percent
G11 and G12	30 days	5,000 USD	20 percent

More details for every single grade, such as travel class and spending limits, are in Annex B of the

Complete Employee Handbook.

10. How to claim

Most benefits are claimed in PeopleHub under My Benefits: choose the benefit, enter the amount, and upload the receipt. Claims are paid with the next monthly salary when they are submitted before the 20th of the month. Claims must be submitted within 30 days of the purchase. Forms for special cases (for example HR-150 for the relocation package) are listed in Annex C of the Complete Employee Handbook.

Part 5 - Remote and Hybrid Work Policy

Northwind Ltd - Policy owner: People and Culture and IT - Effective 1 January 2026 - Version 2026-01

1. Purpose

This policy sets the rules for working outside the office. It supports flexible work and keeps collaboration, security and fairness in balance. It applies to all employees whose role allows remote work. Roles that need a physical presence, such as reception, facilities and laboratory work, are excluded and have their own rules.

2. Hybrid model

2.1 Remote days

Employees may work remotely up to 3 days per week. The other days are office days. Every team keeps 2 team days in the office, which are Tuesday and Thursday unless the team agrees on other days with the head of department. On team days all team members are in the office, so that meetings, workshops and one-to-one conversations can take place in person.

2.2 New joiners and probation

During the first 3 months of employment, new employees work in the office at least 4 days per week, so that they can learn the work and meet their colleagues. After that, the normal model applies. Employees on a performance improvement plan work in the office at least 4 days per week while the plan runs, unless the manager agrees otherwise.

2.3 Fully remote roles

A few roles are fully remote. The head of department and People and Culture approve fully remote roles when a job is created. Fully remote employees come to the office or to a team event at least 4 times per year, and the company pays the travel.

3. Working from another place

3.1 Co-working spaces

Employees may work from a co-working space close to their home when this is agreed with the manager. The company pays up to 150 USD per month for a co-working membership for employees who live more than 60 km from the nearest office or who have no suitable space at home.

3.2 Working from abroad

Employees may work from another country for up to 20 working days per calendar year, when they have asked for approval at least 4 weeks in advance with form HR-118. The country must be on the list of approved countries on the intranet. Working from abroad can create tax, social security and legal obligations, so permission is only given when People and Culture, Finance and Legal have checked the case. Employees pay for their own travel and accommodation. Working abroad without approval is a breach of this policy.

4. Equipment and workspace

- The company provides a laptop, a headset and a monitor for the home workplace on request.
- Employees receive a home office allowance of 400 USD once and 50 USD per month for internet and phone (see the Employee Benefits Guide).
- Employees keep their workspace safe and ergonomic. The online ergonomic self-assessment must be completed within 1 month after the start of remote work and every 2 years. The company pays for an ergonomic chair or desk when the assessment shows a need, up to 400 USD.
- Employees may not let other people use company equipment.

5. Availability and communication

Remote employees are available during the core collaboration hours from 10:00 to 16:00 local time and respond to messages within a reasonable time, normally within 2 hours during working time. They keep their calendar up to date and show when they work remotely. Video is switched on in team meetings unless the connection or the situation does not allow it. Remote employees follow the right to disconnect described in the Work-Life Balance Guidelines.

6. Security when working remotely

- Employees use only the company laptop, VPN and approved tools for work. Private computers are not allowed for work, unless the IT team has approved the Bring Your Own Device programme.
- Screens are locked when the employee leaves the workplace. Confidential conversations are held where nobody can listen.
- Public wireless networks are used only with the company VPN.
- Printing company documents at home is not allowed.
- Lost or stolen equipment is reported to the IT service desk within 1 hour.

More rules are in the IT Security and Data Privacy Policy.

7. Expenses and tax

The company does not reimburse electricity, heating, rent or other home costs, except the allowances described in this policy. Employees who work abroad are responsible for personal tax obligations unless People and Culture has agreed otherwise. Travel to the office is the private cost of the employee, also on team days.

8. Health and safety at home

Employees are responsible for a safe workplace at home. Accidents that happen while working at home are reported within 24 hours with form HR-210, in the same way as accidents in the office. Employees take regular breaks, at least 10 minutes after every 2 hours of screen work.

9. Managing a hybrid team

Managers agree the team days with the team, plan important meetings on team days, and measure results and not presence. They make sure that remote and office colleagues receive the same information and the same opportunities. Managers who see that remote work does not work for a

person or a task talk with the person first and may change the arrangement with a notice of 4 weeks.

10. Changes and exceptions

The head of department may approve an exception to the number of remote days for a limited time, for example for health reasons, for a move, or for the care of a relative. Exceptions are recorded in PeopleHub under My Arrangements. People and Culture reviews this policy every year.

Part 6 - IT Security and Data Privacy Policy

Northwind Ltd - Policy owner: IT Security and Legal - Effective 1 January 2026 - Version 2026-01

1. Purpose and scope

This policy protects the information of Northwind Ltd, its customers and its employees. It applies to every person who uses Northwind systems or data, on company devices and on private devices, in the office and remotely. Security incidents are reported at once to security@northwind.example or by phone to the security desk at +1 (555) 010-9911, which is staffed 24 hours a day.

2. Accounts and passwords

2.1 Passwords

- Passwords have at least 14 characters. A passphrase of several words is recommended.
- Employees do not reuse passwords from private accounts and never share their password with anybody, including colleagues, managers and the IT service desk.
- Passwords are stored in the company password manager and not in files, notes or browsers.
- Passwords are changed immediately when there is a suspicion that they are known to somebody else. Otherwise, there is no forced change, because long passwords with multi-factor authentication are safer.

2.2 Multi-factor authentication

Multi-factor authentication (MFA) is mandatory for email, VPN, PeopleHub, the code repository and all systems that contain confidential data. Employees use the authenticator app or a hardware key. SMS codes are allowed only as a temporary solution. A lost second factor is reported to the IT service desk, which can reset it after checking the identity of the employee.

3. Devices

3.1 Company devices

Company laptops and phones are encrypted and managed by IT. Employees install updates within 5 working days after they are offered and restart the device when asked. The screen locks automatically after 5 minutes of inactivity, and employees lock it manually when they leave the workplace. Employees do not remove security software, and they do not install software that is not on the approved list.

3.2 Bring Your Own Device

Private phones may be used for email and calendar only after they are enrolled in the mobile device management system. Private computers are not allowed to access confidential data. If an enrolled phone is lost, the company can delete the company data on it.

3.3 Removable media

USB sticks and external drives are blocked by default. Exceptions need the approval of IT Security. Files are shared through the approved cloud storage.

4. Information classification

Information is divided into four levels. Employees mark documents with the right level and handle them as shown:

Level	Examples	Handling
Public	press releases, marketing material	can be shared with anyone
Internal	policies, org charts, project plans	share only inside the company
Confidential	customer data, contracts, financial results, source code	share only with people who need it, only on approved systems
Restricted	employee health data, passwords, encryption keys, unreleased results	named recipients only, encrypted, never sent by chat

5. Safe daily behaviour

- Clean desk: confidential papers and devices are locked away at the end of the day and when the employee leaves for more than 30 minutes.
- Phishing: employees do not click links or open attachments in unexpected messages. Suspicious messages are reported with the Report Phishing button, and the IT Security team answers within 1 working day.
- Visitors are always accompanied, and badges are worn visibly in the buildings.
- Documents are printed only when really needed and are collected at once from the printer.
- Confidential conversations are not held in public places, such as trains, cafes or lifts.

6. Use of artificial intelligence tools

Employees may use the AI assistant approved by the company, which runs in the company environment. They do not enter confidential or restricted information, personal data or source code into public AI tools such as free chat services. Results of AI tools are checked by a person before they are used with customers or in decisions about people. Employees mark documents that were written mainly by an AI tool when the reader would expect a human author. New AI tools are assessed by IT Security and Legal before use, and the application takes at most 15 working days.

7. Security incidents

A security incident is any event that may harm the confidentiality, integrity or availability of information. Examples are a lost laptop, a phishing click, an email sent to the wrong person, unauthorised access and malware.

1. The employee reports the incident immediately, and in any case within 1 hour after discovery, to security@northwind.example or +1 (555) 010-9911. 2. The employee does not delete anything and does not try to fix the problem alone. 3. The security team assesses the incident, limits the damage and keeps a log. 4. If personal data is affected, the Data Protection Officer decides within 48 hours whether the authority and the persons concerned must be informed. The legal deadline for notifying the authority is 72 hours after the company became aware of the breach.

8. Data privacy

8.1 Principles

Northwind Ltd processes personal data lawfully, fairly and for a clear purpose. It collects only the data it needs, keeps it correct, deletes it when it is no longer needed, and protects it with technical and organisational measures. Employees who work with personal data complete the data protection training within 30 days after joining and every year afterwards.

8.2 Rights of individuals

Employees, applicants and customers have the right to know which data the company holds about them, to have wrong data corrected, to have data deleted when there is no reason to keep it, and to object to certain processing. Requests are sent to the Data Protection Officer at privacy@northwind.example. The company answers within 30 days. Employees who receive such a request forward it within 2 working days and do not answer it themselves.

8.3 Retention periods

Data	Kept for
Personnel file of a former employee	7 years after the end of employment
Applications of candidates who were not hired	6 months after the decision
Payroll and tax records	10 years
Sickness records (without diagnosis)	3 years after the end of the year
Camera recordings at entrances	30 days
Chat conversations with the HR assistant	30 days, unless the user deletes them earlier
Security logs	12 months

8.4 Sharing data

Personal data is shared only when there is a legal basis and a need. Before a new supplier receives personal data, Legal signs a data processing agreement and IT Security checks the supplier. Data is transferred outside the country of origin only to places that have an adequate level of protection or with approved contract terms.

9. Monitoring

The company monitors its systems to keep them secure, not to watch individual employees. Security logs are checked by the IT Security team. Content of private communication is never read. Targeted monitoring of one employee needs the approval of the Data Protection Officer and People and Culture and happens only in the case of a serious suspicion.

10. Consequences

A breach of this policy can lead to disciplinary action as described in the Code of Conduct and Workplace Rules, and in serious cases to dismissal and legal action. Employees who report their own mistakes quickly are treated with understanding, because a fast report limits the damage.

Part 7 - Health, Safety and Business Travel Policy

Northwind Ltd - Policy owner: Facilities, Finance and People and Culture - Effective 1 January 2026 - Version 2026-01

1. Health and safety at work

1.1 Responsibility

Northwind Ltd provides a safe and healthy workplace. Managers are responsible for the safety of their teams and employees are responsible for working safely and for the safety of others. In every office there are trained fire wardens (1 per 20 employees) and first aiders (1 per 30 employees). Their names are shown on the notice boards next to the lifts and on the intranet.

1.2 Emergencies

In case of fire, employees raise the alarm, leave the building by the nearest exit, do not use lifts, and go to the assembly point in car park A. They do not go back before the fire warden says it is safe. The emergency desk can be reached at +1 (555) 010-7788 at any time. Emergency exits are never blocked. Fire drills take place once per year in every office.

1.3 First aid

First aid boxes are located at reception and on every floor. In case of an accident or sudden illness, the nearest first aider is called, and the emergency services if necessary. Every case of first aid is recorded by the first aider.

1.4 Accidents and incidents

Every accident, near miss or unsafe situation is reported within 24 hours with form HR-210 or in PeopleHub under Report an Incident. Serious accidents that lead to hospital treatment are reported by phone to the emergency desk at once, and the company informs the authorities within the legal time. Nobody is blamed for reporting a near miss: the aim is to learn from it.

1.5 Ergonomics and screen work

Every employee has an adjustable chair and a height-adjustable desk or an equivalent solution. Employees take a short break of at least 10 minutes after every 2 hours of screen work. Free eye tests are described in the Employee Benefits Guide. Employees who feel pain because of their workplace tell their manager or the facilities team, who arrange an ergonomic assessment within 10 working days.

1.6 Special workplaces

In laboratories, warehouses and technical rooms, safety shoes, glasses and gloves are mandatory where signs say so. Employees complete the safety induction before they start work there and repeat it every 2 years. Lifting of loads over 20 kg needs two people or a lifting aid.

1.7 Pregnancy, disability and health conditions

Pregnant employees and employees with a disability or a long-term health condition can ask for adjustments of the workplace, tasks or hours. Facilities and People and Culture arrange a risk assessment within 10 working days after the request.

2. Business travel

2.1 Approval and booking

Business travel needs the approval of the manager before it is booked. Trips abroad that take more than 5 days need the approval of the head of department. Employees book all travel through the travel portal, which uses the company contracts and gives the company an overview in case of an emergency. Bookings outside the portal are reimbursed only with a good reason.

2.2 Flights

- Flights are booked in economy class.
- Employees of grade G8 and above may book business class for flights of more than 8 hours.
- Employees book at least 14 days in advance when possible, and choose the cheapest reasonable fare. Changes and cancellations are made as early as possible.
- Employees collect frequent flyer points for private use, but they do not choose a flight only for the points.

2.3 Hotels

Hotels are booked through the travel portal. The maximum price per night, including breakfast when it is part of the rate, depends on the city:

City category	Maximum per night
Tier 1 cities (for example capitals and financial centres)	250 USD
Tier 2 cities	200 USD
All other places	150 USD

Taxes are included in the maximum. Higher prices need the approval of the head of department before the booking. The list of cities per category is published on the intranet.

2.4 Meals and local transport

Employees receive a daily allowance for meals of 55 USD per day of travel, which is paid without receipts. Meals that are provided by the host or included in the hotel or flight are deducted: 15 USD for breakfast, 20 USD for lunch and 20 USD for dinner. Taxis and ride services are allowed when public transport is not safe or practical. Car rental is allowed for trips of more than 2 days with the approval of the manager, in the smallest suitable category.

2.5 Private car

Business use of a private car is reimbursed with 0.60 USD per kilometre. The employee records the date, the route and the distance in the expense claim. Fines and parking penalties are never reimbursed.

2.6 Insurance and safety

The company's travel insurance covers medical costs, accidents, lost luggage and cancellations during business trips and the private days directly connected to it, up to 3 days. Employees who travel to countries with a travel warning need the approval of the Security desk. The emergency desk at +1 (555)

010-7788 helps in case of illness, accident, theft or political unrest. Employees take care of vaccinations needed for the destination, and the company pays them.

3. Expenses

3.1 How to claim

Employees submit expense claims with form HR-204 in PeopleHub within 30 days after the end of the trip or the purchase. A receipt is needed for every expense above 25 USD. The manager approves the claim within 5 working days, and Finance pays it with the next salary or within 10 working days.

3.2 What is reimbursed

Reimbursed are reasonable costs that were needed for the work, with a receipt: travel, hotel, local transport, visas, business phone calls and customer meals. Meals with customers are reimbursed up to 80 USD per person, and the names of the guests and the business reason are recorded.

3.3 What is not reimbursed

Not reimbursed are alcohol beyond a normal glass of wine or beer with dinner, personal items, minibar and entertainment in the hotel, fines, upgrades without approval, and the costs of a partner or a family member who travels along.

3.4 Approval limits

Managers approve expenses according to their grade: up to 500 USD for grade G3 and below, up to 1,500 USD for grades G4 to G6, up to 5,000 USD for grades G7 to G9, and up to 15,000 USD for grades G10 to G12. Claims above the limit are approved by the next higher manager. Nobody approves their own claim.

4. Company credit cards

Employees who travel often can ask for a company card with form HR-160. It is used only for business expenses, and receipts are uploaded in PeopleHub within 10 working days after the statement. Lost cards are blocked by calling the number on the back of the card and are reported to Finance at once.

5. Misuse

False claims, double claims and claims for private costs are a breach of the Code of Conduct and can lead to disciplinary action, repayment, and in serious cases dismissal.

Part 8 - Recruitment, Performance and Exit Policy

Northwind Ltd - Policy owner: People and Culture - Effective 1 January 2026 - Version 2026-01

1. Recruitment and onboarding

1.1 Fair recruitment

Jobs are advertised internally for at least 5 working days before they are advertised outside the company. Selection is based on skills, experience and potential. Every shortlist considers at least 3 candidates when possible. Interviews are structured: all candidates for the same job receive the same core questions. Every hire needs the approval of People and Culture and the budget holder.

1.2 Offers and contracts

The offer letter names the grade, the salary, the start date, the notice period and the probation period. The offer is valid for 10 working days. Offers are made only after references and checks required by law have been completed. New employees receive their contract at least 10 working days before the start date.

1.3 Onboarding

In the first week, new employees receive their equipment, access to systems, a buddy and a welcome meeting with their manager. In the first 90 days, they follow an onboarding plan with goals for 30, 60 and 90 days. All employees complete the mandatory courses on security, data protection and the Code of Conduct within 30 days after joining.

1.4 Employee referral

Employees may recommend candidates. For every successful referral, the employee receives a referral bonus of 1,000 USD after the new colleague has completed 6 months of employment. Managers and recruiters cannot receive a bonus for roles in their own team.

2. Probation

The probation period is 6 months for all new employees. During probation, the manager and the employee meet at the end of month 1, month 3 and month 5. The manager decides before the end of month 5 whether the employee passes. The probation period can be extended once by up to 3 months when more time is needed to judge, with the written agreement of People and Culture. During probation, the notice period is 1 month for both sides.

3. Performance management

3.1 Goals and conversations

Every employee has 3 to 5 goals per half year, agreed with the manager in PeopleHub. Manager and employee hold a short conversation every month. Formal performance reviews take place twice a year: the mid-year review in June and the year-end review in December.

3.2 Ratings

The year-end review ends with a rating from 1 to 5:

Rating	Meaning
5	Outstanding: far above the goals and a role model
4	Exceeds expectations
3	Meets expectations: a solid performance
2	Needs improvement: some goals not reached
1	Unsatisfactory: most goals not reached

Ratings are discussed in a calibration meeting of the managers of a department, so that they are fair and comparable. Employees see their rating and the reasons in PeopleHub and may add a comment. An employee who disagrees can ask for a second review by the head of department within 10 working days.

3.3 Salary and promotion

Salary increases are decided once per year, with effect from 1 January. The promotion cycle takes place in April. Promotions need a recommendation of the manager, evidence of work at the higher grade for at least 6 months, and the approval of the head of department and People and Culture. A promotion usually comes with a salary increase of at least 5 percent.

3.4 Performance improvement plan

An employee with a rating of 2 or 1, or with serious performance problems during the year, receives a performance improvement plan (PIP) of 90 days. The plan has clear goals, regular weekly meetings, and the support that is needed, such as training or coaching. At the end of the plan, there are three possible outcomes: the performance is good and the plan ends, the plan is extended once by 30 days, or the disciplinary procedure of the Code of Conduct starts. A PIP is not a disciplinary step by itself.

4. Transfers and changes

Employees who have been in their role for at least 12 months may apply for an internal transfer. The current manager is informed at the same time as the new manager and may not block the move without a business reason. The transfer takes place within 8 weeks after the offer, so that handover is possible. A change of grade or location is recorded in a contract amendment.

5. Notice periods

Situation	Notice period
During probation (employee or company)	1 month
After probation, grades G1 to G9	3 months
After probation, grades G10 to G12	6 months

Notice must be given in writing. The notice period ends at the end of a calendar month. The company may release an employee from work during the notice period, with pay (garden leave). By agreement, the notice period can be shortened.

6. Resignation and exit

6.1 Steps when an employee leaves

1. The employee gives written notice to the manager and to People and Culture. 2. The manager plans the handover of tasks, contacts and documents with the employee. 3. People and Culture invites the employee to an exit interview, which is voluntary and confidential. The results are used in anonymous form to improve the company. 4. The employee returns all company equipment, badges and documents on the last working day, and IT removes access at the end of that day. 5. Payroll pays the final salary, together with unused leave of the current year, within 14 days after the last working day.

6.2 References and certificates

On request, People and Culture issues a letter of employment with the job title and dates within 5 working days. A detailed reference is written within 10 working days, and the employee can read it before it is sent. Managers do not give references in the name of the company without People and Culture.

6.3 Rehire

Former employees who left in good standing may apply again. Their previous period of service is not added up, except when the break was shorter than 6 months.

7. Dismissal and redundancy

Dismissal because of conduct follows the disciplinary procedure of the Code of Conduct. Dismissal because of poor performance follows the performance improvement plan above. Dismissal because of redundancy, when a job disappears, needs consultation with employee representatives where the law requires it, a search for another job in the company for at least 30 days, and a severance payment of 1 month of salary for each full year of service, with a minimum of 3 months. The employee may bring a colleague or a representative to every meeting.

8. Retirement

Employees who retire receive a farewell and a long service gift. They may reduce their working time in the 2 years before retirement, with 80 percent of the hours at 90 percent of the pay, when the manager and People and Culture agree. Pension questions are answered by the pension provider and the HR helpdesk at hr-help@northwind.example.
